June 12, 2017

Dear Member of Congress:

As national, state, and local organizations concerned about immigrant rights or access to affordable health care, we are writing to strongly urge you to <u>VOTE NO on HR 2581, the "Verify First" Act.</u> This bill is an attack on people's ability to see a doctor and on immigrants and people of color. It is not the "common sense" taxpayer protection bill that its supporters would have you believe.

HR 2581 is a dangerous bill that puts up roadblocks for both citizens and immigrants to obtain timely, affordable health insurance. It would strip away provisions that provide for a person to obtain subsidies for enrollment in an Affordable Care Act (or the contemplated American Health Care Act) plan while they work with Department of Health and Human Services to verify their U.S. citizenship or immigration status. The people most impacted are U.S. citizens who were born abroad or naturalized. The bill also affects many immigrants, especially those newly arrived or certain victims of domestic violence and trafficking survivors.

The fact is that when individuals are not able to immediately verify their citizenship or immigration status on an Affordable Care Act Marketplace, it begins an often months long, strenuous process of sending in documents that must be physically inspected. Health care assisters routinely say these clients are the hardest cases they work on because the process for verifying citizenship and immigration status is a time-consuming exercise in dealing with inefficient government processes.

Rather than protect American taxpayers, HR 2581 would strip from American taxpayers important protections that are needed to overcome deficiencies in federal government databases. Immigrants who are not lawfully present are categorically barred from enrollment in health insurance on the Affordable Care Act marketplaces, and for the subsidies that make that insurance affordable. Moreover, safeguards protecting taxpayers are already built into the ACA; individuals whose citizenship or immigration status cannot be verified already are required to pay back all of their subsidies when they file their taxes and "reconcile" their premium tax credits.

Supporters of this bill cite a sloppy Senate Homeland Security and Government Affairs Committee report that arrived at a made-up number of supposed "fraud." It's just not true. The committee assumed that every person who lost coverage for failure to verify their citizenship and immigration status was undocumented. In the experience of our organizations and organizations we work with, this is false. These reports describe the first year of the marketplaces, and it is well documented that system outages and understaffing, among other technical problems, contributed to the federal Marketplace's failure to verify consumers' status promptly. The Department of Health and Human Services Inspector General reported in 2014 that a cause of the delay in verification was the agency's lack of prioritization of this issue. Despite huge gains since then, problems still persist. The Social Security database holding many citizens' information may not reflect common changes, such as when a person marries and changes their last name, or when someone naturalizes and gains U.S. citizenship. People lose their coverage because they receive notices in languages they cannot read. Immigrants are required to submit documents multiple times, or wait while the Department of Homeland Security finds paper files, a result of deficiencies in their databases affecting groups like asylum applicants and some survivors of domestic violence. These are among the many issues consumers face.

Congress has already deprived undocumented immigrants from the ability to buy coverage, even at full price, so they can see a doctor when they are sick, but this bill would go a step further to delay or put out of reach affordable health insurance for many citizens and lawfully present immigrants. Our organizations firmly believe that this would be detrimental to the people we represent and to all of our communities as a whole. We have seen that when health insurance is unaffordable, people are effectively prevented from obtaining access to the care they need to be healthy.

This bill is not just an attack on our health care system, it is also an attack on immigrants and people of color, which our organizations stand firmly against. In his statements when introducing this bill, Rep. Lou Barletta focused the bill as part of his effort to "stop illegal immigration." Rep. Barletta has a long history of anti-immigrant rhetoric, from trying to prevent immigrants from leasing a residence to stating that they should be denied life-saving services in hospital emergency rooms. This bill is simply a vehicle for scapegoating immigrants and people of color and will keep eligible people from accessing health care.

We the undersigned organizations urge you to <u>vote **NO** on HR 2581</u> and the continued assault on immigrants and the health of our communities.

Sincerely,

## National
